

Program of poster session

Session 1

Kasianov A. (Russia)

Environmental friendly deep tillage

Äijö Helena TESTING OF WATER GATE VALVE IN CONTROLLED DRAINAGE

Session 2

Mitrofanov Ya. (Russia)

The role of drainage in the agriculture intensification on wetlands of non-chernozem zone

Ksenzov A. (Russia)

Highlights for improving subsurface drainage system operation

Isaeva S. (Russia)

Drainage operation optimization on agricultural lands at mining enterprises liquidation

Session 3

Myllys Merja (Finland)

Effect of subsurface drainage and subsoiling on soil structure and crop yield

Tuohy Patrick (Ireland)

The effect of mole drainage on the hydrology of a clay-loam soil

Session 5

Dobrohotov A. (Russia)

Computer-aided system of control water regime of soils

YILDIZ GÜLAĞACI REMZİYE (Turkey)

SALINATION DYNAMICS AND SOLUTION SUGGESTIONS IN SOIL OF HARRAN PLAIN IRRIGATION PROJECTS

Kontorovich (Russia)

The concept of renewable energy for the disposal of mineralized drainage flow

Kireycheva L. (Russia)

Environmental aspects of influence drainage flow from drained areas to water systems

Äijö Helena (Finland)

The Plastic Sheet in Preventing Seepage from Fields with Controlled Drainage into the Main Drain

Äijö Helena (Finland)

Subsurface Drainage System for Chemical Precision Treatment of Acid Sulfate Soils

Nurminen Jyrki (Finland)

Transport of nutrients and suspended solids from subsurface drained clayey agricultural fields in southern Finland

Session 6

Ivanov D. (Russia)

Monitoring of the dynamics of groundwater levels within agrolandscape
