

Travel from the airport to the conference site consists of two segments:

### From airport to Kursky railway terminal

Three international airports, Sheremetievo (SVO), Domodedovo (DME), and Vnukovo (VKO) are located around Moscow. They are connected to downtown with the Aeroexpress trains running 35-45 mins with the cycle of 30 mins. and arriving to the Belorussky, Paveletsky, and Kievsky railway terminals, respectively. The train ticket can be purchased online at

<http://www.aeroexpress.ru/en/>

or at vending machines and counters located at the Aeroexpress terminals of the airports.

A useful option is to order additional taxi service to Kursky railway terminal at the Aeroexpress partner (the cost ~400 RUB)

<https://aeroexpress.ru/en/forPassengers/taxi.html>

As a part of this service the driver will wait for you at the platform exit with an “Aerotaxi” sign and bring you to the car parked in front of Belorussky, Paveletsky, or Kievsky railway terminal.

Another option is to commute to Kursky railway terminal by Moscow subway system (Metro). The Metro stations Belorusskaya ( *Белорусская* ), Paveletskaya ( *Павелецкая* ), and Kievskaya ( *Киевская* ) are located on walking distance to the corresponding Aeroexpress arrival terminals. The Metro ticket (40 RUB for one trip) can be purchased at the Aeroexpress counters (tariff “Plus Metro”) and at the vending machines or counters located at the metro pavilion entrance or/and just before the ticket barrier. *Note, the vending machines do not accept the bills bigger than 100 RUB.* Proceed from the railway terminal to the corresponding Metro station designated by big red letter “M”. In all three cases you need a station of the circle (brown, N5) line.

Press the ticket to the yellow circle at the barrier and proceed to the platform leading to the Metro station Kurskaya ( Курская ).

At Belorusskaya station

At Paveletskaya station

At Kievskaya station

After coming to Kurskaya station exit outside to Kursky square and find the railway terminal on the left.

## From Kursky railway terminal to Vladimir

For the trip from Moscow to Vladimir we recommend to book fast train “Sapsan”(704H) running at 19:30 from Kursky terminal and arriving to Vladimir at 21:15. The tickets are available in particular at

[www.russianrail.com](http://www.russianrail.com)  
[www.russiantrains.com](http://www.russiantrains.com)  
[www.rzd.ru](http://www.rzd.ru)

and early reservation is preferable. Other good options are fast trains “Lastochka” (732H, 734H, and 736H) starting at 11:00, 14:15, and 16:45, respectively. The fast trains Sapsan and Lastochka start from platform 11 of Kursky terminal. Come to the entrance located at the exit from the circle-line Kurskaya Metro station and proceed through the terminal to a security check pavilion located just before the platform.

We plan to provide a transfer bus for Sapsan starting on 24/08 at 19:30 from Kursky terminal. Having arrived to Vladimir proceed to the terminal through the gallery leading over the railways. The transfer bus will be waiting for you near old locomotive disposed as an open-air museum exhibit on the right from the terminal exit.

The best

карты

transfer for other trains is taxi (800-1000 RUB depending on the day time). A fast train Lastochka (731H) running at 11:57 from Vladimir and arriving to Kursky terminal at 13:45 is recommended for the return trip with a transfer bus from the hotel to the terminal Vladimir foreseen. Note the difference between the arrival and departure platforms and just cross the terminal to catch the train to Moscow. Having arrived to Kursky terminal proceed to the underground floor of the terminal through the tunnel starting at the arrival platform, take escalator located at the hall center to reach the ground floor, and exit from the terminal to Kurskaya square. Turn right after the exit, proceed to the circle-line Metro station Kurskaya, which you arrived on the direct way to Vladimir, and further to your airport following the direct-way schemes.
